

MESSAGE FROM CMD

DELIVERY OF YARD 2117 (KANAKLATA BARUA)

1. Today another glorious chapter gets added in the history of the GRSE as we celebrate the delivery of Yard 2117 (ICGS Kanaklata Barua), the 105th warship built by the GRSE, to the Indian Coast Guard.
2. I am happy to state that the ship ICGS Kanaklata Barua, a fully in-house designed and indigenously built ship, being delivered to the ICG despite the fact that the shipyard has been going through the unprecedented lockdown situations for over past two months due to COVID-19 pandemic. I appreciate the exceptional efforts put in by all personnel of the shipyard especially of RBD to deliver this fine ship within a short span of time of partial lifting of lock down.
3. As you are aware that the shipyard operations had to be completely suspended for over two months which has led to cascading adverse effects on our various business processes. Hence, I urge upon each and every employee of the GRSE to think differently , innovatively and give their best to make up for the production loss due to lockdown situation.
4. While we have reasons to celebrate this occasion, let me remind you our next target of delivering last LCU Yard-2099 in coming months and launching of , Yard-3022 ,the first P17A ship in Nov this year. I am confident that TEAM GRSE would surmount all challenges with dedication, devotion and enthusiasm towards achieving the set goals. While all of us must work harder but we shouldn't forget about the adherence of all safety precautions against the Corona virus
5. My heartiest congratulations to TEAM GRSE on this stupendous feat.
Well done, Shabash
Jai hind.
