

MESSAGE FROM CMD

KEEL LAYING OF YARD 3022

1. Keel Laying of the First P17A Stealth Frigate (Yard 3022) is a major mile stone that our shipyard has achieved today. That this milestone has been achieved ahead of schedule despite unforeseen impediments is solely due to the dedicated and untiring efforts put in by the Team GRSE, especially the Project Management Team (P17A) and the Main Works Team with proactive support from the Planning, Commercial, Design and QA departments.
2. Having achieved this milestone, we have a series of challenging milestones ahead of us to be achieved. We should continue to strive hard to achieve the targets set for us, find innovative solutions to overcome impediments and continually improve our performance benchmarks. Let us rededicate ourselves and put in concerted efforts towards meeting the challenging targets ahead with full zeal, sincerity and synergy.
3. I once again urge you to work harder with the aim of making GRSE as the Best Shipyard in the country and a world class shipyard.
4. I convey my congratulations to the Team GRSE on this accomplishment.

Well done, Shabash.

Chairman & Managing Director
