**(I) JOURNEYMAN (STRUCTURAL FITTER)**

|   |
|---|
| Linear measurements- its units, dividers, calipers, hermaphrodite, centre punch, dot punch, prick punch their description and uses of different types of hammers. Description, use and care of 'V' Blocks, marking off table.<br>Measuring standards (English, Metric Units), angular measurements.   |
| Bench vice construction, types, uses, care & maintenance, vice clamps, hacksaw frames and blades, specification, description, types and their uses, method of using hacksaws.<br>Files- specifications, description, materials, grades, cuts, file elements, uses. Types of files, care and maintenance of files.<br>Measuring standards (English, Metric Units), angular measurements. |
| Marking off and layout tools, dividers, scribing block, - description, classification, material, care & maintenance. Try square, ordinary depth gauge, protractor- description, uses and cares.<br>Uses, care & maintenance of cold chisels- materials, types, cutting angles.  |
| Marking media, marking blue, Prussian blue, red lead, chalk and their special application, description.<br>Use, care and maintenance of scribing block.<br>Surface plate and auxiliary marking equipment, 'V' block, angle plates, parallel block, description, types, uses, accuracy, care and maintenance.  |
| Physical properties of engineering metal: colour, weight, structure, and conductivity, magnetic, fusibility, specific gravity.<br>Mechanical properties: ductility, malleability, hardness, brittleness, toughness, tenacity, and elasticity.   |
| Power Saw, band saw, Circular saw machines used for metal cutting.  |
| Vernier calipers, principle, construction, graduations, reading, use and care. Vernier bevel protractor, construction, graduations, reading, use and care, dial Vernier Caliper, Digital Vernier caliper.<br>Vernier height gauge: material construction, parts, graduations (English & Metric) uses, care and maintenance.   |
| Safety precautions to be observed in a workshop   |
| Marking and measuring tools, wing compass, tin man's square tools, snips, types and uses. Tin man's hammers and mallets type-sheet metal tools, types, specifications, uses. Trammel- description, parts, uses.<br>Hand grooves- specifications and uses. Sheet and wire gauge.   |
| Stakes-bench types, parts, their uses. Various types of metal joints, their selection and   |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

|  |
|--|
| application, tolerance for various joints, their selection& application. Wired edges.  |
| Solder and soldering: Introduction-types of solder and flux. Composition of various types of solders and their heating media of soldering iron. Method of soldering, selection and application-joints. Hard solder- Introduction, types and method of brazing.   |
| Various rivets shape and form of heads, importance of correct head size.<br>Rivets- Tin man's rivets types, sizes, and selection for various works. Riveting tools, dolly snaps description and uses. Method of riveting, The spacing of rivets. Flash riveting, use of correct tools, compare hot and cold riveting.  |
| Tap wrench: material, parts, types (solid & adjustable types) and their uses removal of broken tap, studs (tap stud extractor).<br>Dies: British standard, metric and BIS standard, material, parts, types, Method of using dies.<br>Die stock: material, parts and uses.  |
| Grinding wheel: Abrasive, grade structures, bond, specification, use, mounting and dressing. Selection of grinding wheels. Bench grinder parts and use.  |
| Gauges- Introduction, necessity, types. Limit gauge: Ring gauge, snap gauge, plug gauge, description and uses.<br>Description and uses of gauge- types (feeler, screw, pitch, radius, wire gauge).   |
| Pig Iron: types of pig Iron, properties and uses.<br>Cast Iron: types, properties and uses<br>Wrought iron:- properties and uses.<br>Steel: plain carbon steels, types, properties and uses.<br>Non-ferrous metals (copper, aluminum, tin, lead, zinc) properties and uses.  |
| Simple scraper- flat, half round, triangular and hook scraper and their uses. Blue matching of scraped surfaces (flat and curved bearing surfaces). Testing scraped surfaces: ordinary surfaces without a master plate.  |
| Vernier micrometer, material, parts, graduation, use, care and maintenance. Calibration of measuring instruments.<br>Introduction to mechanical fasteners and its uses.<br>Screw thread micrometer: Construction, graduation and use.  |
| General turning operations- parallel or straight, turning. Stepped turning, grooving, and shape of tools for the above operations. Appropriate method of holding the tool on tool post or tool rest,<br>Knurling: tools description, grade, uses, speed and feed, coolant for knurling, speed, feed calculation.<br>Taper – definition, use and method of expressing tapers.<br>Standard tapers-taper, calculations Morse taper. |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

**Engineering Drawing:**

Introduction to Engineering Drawing and Drawing Instruments –

- Conventions
- Sizes and layout of drawing sheets
- Title Block, its position and content
- Drawing Instrument

Lines- Types and applications in drawing Free hand drawing of –

- Geometrical figures and blocks with dimension
- Transferring measurement from the given object to the freehand sketches.
- Free hand drawing of hand tools and measuring tools.

Drawing of Geometrical figures:

- Angle, Triangle, Circle, Rectangle, Square, Parallelogram.
- Lettering & Numbering – Single Stroke.

Dimensioning

- Types of arrowhead
- Leader line with text
- Position of dimensioning (Unidirectional, Aligned)

Symbolic representation –

- Different symbols used in the related trades.

Concept and reading of Drawing in

- Concept of axes plane and quadrant
- Concept of Orthographic and Isometric projections
- Method of first angle and third angle projections (definition and difference)

**Workshop Calculation & Science:**

**Unit, Fractions**

Classification of unit system

Fundamental and Derived units F.P.S, C.G.S, M.K.S and SI units Measurement units and conversion

Factors, HCF, LCM and problems

Fractions - Addition, subtraction, multiplication & division Decimal fractions - Addition, subtraction, multiplication & division

**Square root, Ratio and Proportions, Percentage**

Square and square root

Applications of Pythagoras theorem and related problems Ratio and proportion

Ratio and proportion - Direct and indirect proportions Percentage

Percentage - Changing percentage to decimal and fraction

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

**Mass, Weight, Volume and Density**

Mass, volume, density, weight and specific gravity

Related problems for mass, volume, density, weight and specific gravity

**Speed and Velocity, Work, Power and Energy** Work, power, energy, HP, IHP, BHP and efficiency

**Heat & Temperature and Pressure**

Concept of heat and temperature, effects of heat, difference between heat and temperature, boiling point & melting point of different metals and non-metals

Concept of pressure - Units of pressure, atmospheric pressure, absolute pressure, gauge pressure and gauges used for measuring pressure

**Mensuration**

Area and perimeter of square, rectangle and parallelogram Area and perimeter of Triangles

Area and perimeter of circle, semi-circle, circular ring, sector of circle, hexagon and ellipse

Surface area and volume of solids - cube, cuboid, cylinder, sphere and hollow cylinder

Finding the lateral surface area, total surface area and capacity

in litres of hexagonal, conical and cylindrical shaped vessels

**Levers and Simple machines**

Simple machines - Effort and load, mechanical advantage, velocity ratio, efficiency of machine, relationship between efficiency, velocity ratio and mechanical advantage

**Trigonometry**

Measurement of angles Trigonometrical ratios Trigonometrical tables

Marking and laying out tools and accessories

Measuring Tools : steel Rule, calipers, try square, L square, Micrometer, Vernier caliper, Vernier height gauge, Combination set, screw pitch gauge, radius gauge, SWG, Bevel Protractor etc. Marking Tools: Scratch AWL, divider, Trammel point, punches etc. Cutting tools: Snips, shears, hacksaw, chisel, cutting plier, files, drills, tap & die sets etc.

Hand tools: mallets, hammer, sheet metal hammers, groovers, riveting tools, screw drivers, wrench and spanners etc. Holding tools & accessories: vices, C-clamps, stakes, stakes holder, hollow mandrel, wooden former, Jigs & fixtures, soldering bits etc.

Sheet Metal Folded Joints: Description of Sheet Metal Seam, Grooved seam, Locked Grooved seam, Paned down seam, Knocked up seam inside and outside, capstrip seam, pitsburg seam etc.

Folding and joining allowances, edge stiffening, wiring allowances and false wiring, types of notches in sheet metal.

Definitions of pattern, Development, stretched out pattern, Master pattern (gross pattern) and templates Development of by parallel line method, radial line method.

Development of surfaces: Triangulation method and geometrical construction methods.

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

|   |
|---|
| Solid and Hollow Punches. Description of hand punches as per BIS. Sizes of solid and hollow Punches and their uses.   |
| Fastening of Sheet Metal: Self tapping screws, Clips and Connectors; Their uses, Types and Allowance of 'S' Clips, Government Clips, Drive Clips, Mailing Clips etc.  |
| Development of surfaces: Triangulation method and geometrical construction methods.   |
| Solid and Hollow Punches. Description of hand punches as per BIS. Sizes of solid and hollow Punches and their uses.   |
| Rivets and its parts, Selection of Rivet heads.<br>Types of Rivet and their uses. Standard sizes of Rivets and Riveting Tools.<br>Calculation for Riveting allowances (pitch and Lap)   |
| Solder, Different types of solder and their composition. Types and uses of fluxes, their effect on different metal.   |
| Process of soft soldering, hard soldering (brazing). Heating appliances (Hand Forge, Blow Lamp, L.P.G.)   |
| Development & laying out pattern of elbow pipe, T pipe and offset pipe in equal diameter.   |
| Development of T pipe, round equal and unequal. Introduction to tubes and pipes.  |
| Laying out pattern of 600 off-set 'T' pipe. Pattern Development of 'Y' pipe.<br>Preparation of pickling solution. Protection-Coating, Cleaning and preparing of Sheet Metals Corrosion and anti-corrosion treatment of sheet metal.   |
| Method of galvanizing, tinning, anodising, sheradising and Electroplating.  |
| Development and laying out of pattern of segmental quarter bend pipe.   |
| Need for ducting. Places where ducting is employed and the working principle of a dust cyclone, Gutter and its use. False ceiling.  |
| Safety precaution in gas & arc welding Description of Oxyacetylene plant and the equipments, accessories & tools.   |
| Types of oxy-acetylene flames & its uses. Types and description of flux. Types of welding blow pipes & its functions.   |
| Various types of pipe joints. Method of metal preparation & cleaning them base metal before welding. Gas welding defects causes & remedies.<br>Arc welding defects causes & remedies.   |
| Introduction to Aluminum fabrication, and its applications. Ferrous and Non-Ferrous metals. Use of Copper and Alloys. Laying out pattern of conical elbows. Pattern development of lobster back bend. Chemical and Physical properties of Aluminium. Use of Aluminium and its Alloys. |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

|  |
|--|
| Brief Description of hand punch machine. Hand and Power operated drilling Machines. Drill Bits, parts and effects of cutting angles. Angles for Drilling Sheet Metals, effect of speed, Feed Cutting Fluids, etc., on metals. Difference between drilled and punched holes.                    |
| Description of swaging and beading machine, its parts, operating principles etc. Description of Fly Ball press. Operating Principles of Power Press and press brakes. Method to calculate the pressure adjustment. Clearance between Die and Punch. Introduction to "C" and "H" frame presses. |
| Properties of stainless steel and its uses. Properties and uses of tin, lead, zinc and silver. Description and Physical properties of Muntz Metal, Gun Metal, White Metal etc.   |
| Introduction to pipe/tube bending. Brief description of Hydraulic pipe bending machine. Operating Principles etc. Description of roll forming machine types and operating principles, description of slip roll forming machine and its function.   |
| Use of Die and Die Holder, Description of taps and tap wrench.   |
| Method to operate folding/brake folder for typical folding. Description and use of jigs and fixtures.  |
| Different process of metal joining types of weld joint & weld positions. Oxy- acetylene welding equipments & application, Types of flame & their uses.   |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

**Fasteners:**

Introduction to fasteners, screw threads, related terminology and specification.  
Keys- types & use, (parallel, sunk, tangential, gib head, woodruff, key ways.) Related hazards, risk and precautions, while working.

**Maintenance Practice and Mechanical Assembly**

Introduction to various maintenance practices such as preventive maintenance, predictive maintenance, breakdown maintenance & reconditioning.

Organization Structure for maintenance, Roles and responsibility, advantage and disadvantage of TPM.

**Transmission of Power** Elements of mechanical power transmission, type of spindles and shafts (Universal spindle, Plain shaft, Hollow shaft, crank shaft, cam shaft). Positive and Non-positive drive, Friction drive, Gear drive, Belt drive, Chain drive and Rope drive.

**Clutches**

Function of Clutches, its types and use in power transmission system. Function of mechanical & electromagnetic system in clutch mechanism.

**Couplings:**

Concept of coupling and its type viz. Rigid coupling- Muff coupling, Flange coupling, Flexible coupling, Pin-bush coupling, Chain coupling, Gear coupling, Spider coupling, Tyre coupling, Grid coupling, Oldham-coupling, Fluid coupling, Universal coupling and their specific applications.

**Brakes & Braking Mechanism:** Types & Functions. Inspection of brakes for safe & effective working.

**Belts-**

Belt types (Flat and V) and specifications.

Pulleys used for belt drive. Installation, Alignment of belts.

Problems related to belts (Creep and slip), Belt maintenance.

Sheave alignment, Chain drive- Roller chain, Silent chain, alignment of sprockets, and maintenance of chain drive.

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

**Bearing:**

Description and function of bearing, its types - Solid Bush, Split Bush, Collar, Pivot and Plummer Block Bearing.

Mounting of bearings, measurement and adjustment of clearances in bearings.

Types of bearing fitting on shaft and hubs.

Type of Roller contact

bearings- Ball bearings- single row & double row, Deep groove ball bearing, Angular contact, Self aligning and Thrust bearing.

Roller bearing- Cylindrical, Needle roller, Taper roller, Spherical roller, self aligning and Spherical roller thrust bearing.

Use of ISO bearing designation code to generate market survey and purchase. Checking and adjustment of bearing clearance.

Methods of Mounting and dismounting of roller contact bearing, taper roller bearing and angular contact ball bearing. (Back-to-back, Face-to-face, tandem). Mounting-dismounting and adjustment of Taper bore bearings with a dumper and withdrawal sleeve.

Handling and storage of bearings.

Related hazards, risk and precautions. Rigging Knowledge of different tools & tackles used in rigging.

Construction and capacity of wire rope/steel rope/belts. Application of knots and hitches.

Care and maintenance of all types of ropes.

**Gear:**

Type, description and function of gears-

Spur, Helical, Spiral, Bevel, Straight and Spiral bevel, Worm gears, Rack and pinion. Gear Terminology.

Gear train- simple, compound, reverted and epicyclic.

Types of Gear box

Gear meshing: Checking of backlash and root clearances with Feeler Gauge, Dial Test Indicator and lead wire.

Impression testing of gear mesh with Prussian blue. Running maintenance Related hazards, risk and precautions.

Working Of Solenoids, Inductors, Motors, GeneratorBased On Electromagnetic Induction Principle. (08hrs)  
Safety precautions to be observed while working on alathe, Lathe specifications, and constructional features.  
Lathe main parts  
descriptions- bed, head stock,carriage, tail stock, feeding and thread cutting mechanisms. Holding of job between centers, works with catch plate, dog, simple description of a facing and roughing tool and their applications.

**Hydraulics & Pneumatics**

Basic principles of Hydraulics –  
Advantages & limitation of hydraulic system, hydrostatictransmission, Pascal’s law, Brahma’s press, pressure Temperature & flow, speed of an actuator.  
Control valves: Different typeof control valves used in hydraulic System.  
Function of pressure controlvalve, directional control valve, check valve, flow control valve.

Compressed air generation and conditioning, Air compressors, Pressure regulation, Dryers, Air receiver, Conductors and fittings, FRL unit, Applicationsof pneumatics, Hazards & safety precautions in pneumatic systems.  
Pneumatic actuators:- Types, Basic operation, Force, Stroke length, Single-acting and double-acting cylinders.  
Pneumatic valves:- Classification, Symbols of pneumatic components, 3/2-way valves (NO & NC types) (manually-actuated & pneumatically-actuated) & 5/2-way valves, Check valves, Flow control valves, One-way flow control Valve

Pneumatic valves: Roller valve, Shuttle valve, Two-pressure valve  
Electro-pneumatics: Introduction, 3/2-way single solenoid valve, 5/2-way singlesolenoid valve, 5/2-way double solenoid valve, Control components - Pushbuttons (NO & NC type) and Electromagnetic relay unit, Logic controls

- Symbols of hydraulic components, Hydraulic oils  
–function, properties, andtypes, Contamination in oils and its control
- Hydraulic Filters – types,constructional features, and their typical installation locations, cavitations, Hazards & safety precautions in hydraulic systems
- Hydraulic reservoir & accessories, Pumps, Classification – Gear/vane/piston types, Pressure relief valves – Direct actingand pilot-operated types
- Pipes, tubing, Hoses andfittings – Constructionaldetails, Minimum bend radius, routing tips for hoses
- Hydraulic cylinders –Types
- Hydraulic motors –Types

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

- Hydraulic valves: Classification, Directional Control valves – 2/2- and 3/2-way valves
- Hydraulic valves: 4/2- and 4/3-way valves, Centre positions of 4/3-way valves
- Hydraulic valves: Check valves and Pilot-operated check valves, Load holding function
- Flow control valves: Types, Speed control methods – meter-in and meter-out
- Preventive maintenance & troubleshooting of pneumatic & hydraulic systems, System malfunctions due to contamination, leakage, friction, improper mountings, cavitations, and proper sampling of hydraulic oils

Electro hydraulic circuit, Electrical components

- Switches
- Solenoid
- Relay

Introduction to Pneumatic actuators

Pneumatic Symbols Pneumatic circuit

Electrical control components

- Switches
- Solenoid
- Relay

Study & working of a hydraulic press along with its components. Breakdown & preventive maintenance of a hydraulic press. Safety in use of and maintenance of hydraulic presses.

Proximity Sensors Classification And Operation-Proximity Sensor-Types Of Proximity Sensor And Their Working-Industrial Application

Sensors For Distance and Displacement -LVDT-Linear

Pipes and pipe fitting- commonly used pipes. Pipe schedule and standard sizes. Pipe bending methods. Use of bending fixture, pipe threads-Std. Pipe threads Die and Tap, pipe vices.

Standard pipe fitting- Methods of fitting or replacing the above fitting, repairs and erection on rainwater drainage pipes and house hold taps and pipe work.

**Grinding:**

Grinding machine – introduction, parts & constructional details, types

– surface grinding and cylindrical grinding machines. Safety precaution followed while working on grinding machines. Grinding wheels – abrasives, bond and bonding process, grit, grade, and structure of grinding wheels and its marking system.

Procedure for mounting of grinding wheels, balancing of grinding wheels, dressing and truing of grinding wheels, glazing and loading in grinding wheel.

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

Different type of jacks, chainblock and pull lift.  
Knowledge of different types of scaffolding.  
Material movement by using different rigging tools and techniques.  
Safety appliances & precautions in rigging. Maintenance of tools and tackles.

**Engineering Drawing**

Introduction to Engineering Drawing and Drawing Instruments –

- Conventions
- Sizes and layout of drawing sheets
- Title Block, its position and content
- Drawing Instrument

Lines-Types and applications in drawing Free hand drawing of-

- Geometrical figures and blocks with dimension
- Transferring measurement from the given object to the freehand sketches.
- Freehand drawing of hand tools and measuring tools. Drawing of Geometrical

figures:

- Angle, Triangle, Circle, Rectangle, Square, Parallelogram.
- Lettering & Numbering–Single Stroke. Dimensioning
- Types of arrow head
- Leader line with text
- Position of dimensioning (Unidirectional, Aligned)

Symbolic representation–

- Different symbols used in the related trades. Concept and reading of

Drawing in

- Concept of axes plane and quadrant
- Concept of Orthographic and Isometric projections
- Method of first angle and third angle projections (definition and difference)

**Workshop Calculation & Science**

**Unit, Fractions**

Classification of unit system

Fundamental and Derived units F.P.S, C.G.S, M.K.S and SI units

Measurement units and conversion

Factors, HCF, LCM and problems

Fractions - Addition, subtraction, multiplication & division

Decimal fractions - Addition, subtraction, multiplication & division

**Square root, Ratio and Proportions, Percentage**

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

Square and square root,

Applications of pythagoras theorem and related problems

Ratio and proportion, Percentage, Changing percentage to decimal and fraction

**Material Science**

Types metals, types of ferrous and non-ferrous metals

Physical and mechanical properties of metals

Introduction of iron and cast iron

Difference between iron & steel, alloy steel

Properties and uses of insulating materials

**Mass, Weight, Volume and Density**

Mass, volume, density, weight and specific gravity

**Speed and Velocity, Work, Power and Energy**

Work, power, energy, HP, IHP, BHP and efficiency

**Heat & Temperature and Pressure**

Concept of heat and temperature, effects of heat, difference

between heat and temperature, boiling point & melting point of different metals and non-metals

Concept of pressure - Units of pressure

**Basic Electricity**

Introduction and uses of electricity

Electrical power, HP, energy and units of electrical energy

**Mensuration**

Area and perimeter of square, rectangle and parallelogram  
Area and perimeter of Triangles

Area and perimeter of circle, semi-circle, circular ring, sector of circle, hexagon and ellipse

Surface area and volume of solids - cube, cuboid, cylinder, sphere and hollow cylinder

Finding the lateral surface area, total surface area and capacity in litres of hexagonal, conical and cylindrical shaped vessels

**Levers and Simple machines** - Lever and its types

**Trigonometry** Measurement of angles

Trigonometrical ratios, Trigonometrical tables

**Friction**

Friction - Advantages and disadvantages, Laws of friction, co-efficient of friction, angle of friction, simple problems related to friction, Lubrication, Co-efficient of friction

**Centre of Gravity**

Centre of gravity - Centre of gravity and its practical application

**Elasticity**

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

Elasticity - Elastic, plastic materials, stress, strain and their units and young's modulus

**Heat Treatment**

Heat treatment and advantages

Different heat treatment process – Hardening, tempering, annealing, normalising and case hardening

\*\*\* \*\*

**(VI) JOURNEYMAN (MACHINIST)**

|  |
|--|
| Linear measurements- its units, steel rule dividers, callipers – types and uses, Punch – types and uses. Uses of different types of hammers. Description, use and care of marking off table.   |
| Bench vice construction, types, uses, care & maintenance, vice clamps, hacksaw frames and blades, specification, description, types and their uses, method of using hacksaws. Files- elements, types, specification and their uses. Methods of filing. Care and maintenance of files.<br>Measuring standards - English, Metric Units   |
| Pedestal grinding machine: Use, care and safety aspect.<br>Marking off and layout tools, scribing block, care & maintenance.<br>Try square, ordinary depth gauge, Care & maintenance of cold chisels- materials, types, cutting angles.<br>Combination set- its components, uses and cares.  |
| Marking media, Prussian blue, red lead, chalk and their special application, description. Surface plate and auxiliary marking equipment, 'V' block, angle plates, parallel block, description, types, uses, accuracy, care and maintenance.  |
| Drill, Tap, Die-types & application. Determination of tap drill size. Basic terminology related to screw thread.<br>Reamer- material, types (Hand and machine reamer), parts and their uses, determining hole size for reaming, Reaming procedure.<br>Vernier height gauge: construction, graduations, vernier setting & reading. Care and maintenance of Vernier height Gauge.<br>Drilling machines-types & their application, construction of Pillar & Radial drilling machine. Countersunk, counter bore and spot facing-tools and nomenclature.<br>Cutting Speed, feed, depth of cut and Drilling time calculations. |
| Interchangeability: Necessity in Engg., field, Limit- Definition, types, terminology of limits and fits-basic size, actual size, deviation, high and low limit, zero-line, tolerance zone, allowances. Different standard systems of fits and limits. (British standard system & BIS system)<br>Vernier calliper-its parts, principle, reading, uses & care.<br>Outside micrometre- its parts, principle, reading, uses, Reading of Vernier Micrometre), care & maintenance.<br>Dial test indicator- its parts, types, construction and uses.  |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

|   |
|---|
| Getting to know the lathe with its main components, lever positions and various lubrication points as well.   |
| Definition of machine & machine tool and its classification. History and gradual development of lathe. Introduction to lathe- its types. Centre lathe construction, detail function of parts, specification. Safety points to be observed while working on a lathe.                   |
| Lathe cutting tool-different types, material, shapes and different angles (clearance, rake etc.) and their effects, specification of lathe tools, grinding process of tools. Types of chips, chip breaker. Tool life, factors affecting tool life.                                    |
| Driving mechanism, speed and feed mechanism of Lathe.   |
| Concept of Orthogonal and Oblique Cutting.<br>Chucks & different types of job holding devices on lathe and advantages of each type.<br>Mounting and dismounting of chucks.<br>Vernier Bevel Protractor – parts, reading and uses.   |
| Lathe operations-facing, turning, parting-off, grooving, chamfering, boring etc.<br>Knurling- types, grade & its necessity.   |
| Taper – different methods of expressing tapers, different standard tapers. Method of taper turning, important dimensions of taper. Taper turning by swiveling compound slide, its calculation.  |
| Calculations of taper turning by offsetting tail stock.<br>Sine Bar – description & uses.<br>Slip gauge – description and uses.   |
| Different thread forms, their related dimensions and calculations of screw cutting in a lathe (Metric thread on English lathe and English thread on Metric lathe). Measurement of threads by three wire methods. Use of Screw Pitch Gauge.  |
| Slotter– Classification, principle, construction, Safety precaution.<br>Introduction and their indexing process on a Slotter by its Rotary table graduations.<br>Driving mechanisms, quick return motion and speed ratio.<br>Safety points to be observed while working on a Slotter. |
| Job holding devices-vice, clamps, V-block, parallel block etc.<br>Slotting tools- types, tool angles.   |
| Spline – types and uses.<br><b>Coolant &amp; lubricant</b> – Introduction, types, properties, application & applying methods.   |
| Milling Machine: Introduction, types, parts, construction and specification.<br>Driving and feed mechanism of Milling Machine.  |
| Different types of milling cutters & their use. Cutter nomenclature.  |
| Different milling operations - plain, face, angular, form, slot, gang and straddle milling etc. Up and down milling.  |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

|  |
|--|
| Different types of milling attachments and their uses.   |
| Jigs and Fixtures– Introduction, principle, types, use, advantages & disadvantages.  |
| Properties of metals general idea of physical, mechanical properties of metals, colour, weight, hardness toughness, malleability, ductility their effect on machinability.<br>Heat Treatment – Introduction, necessity, types, Purposes, different methods of Heat Treatment. Heat Treatment of Plain Carbon Steel.                              |
| Indexing-introduction & types. Indexing head- types & constructional details, function of indexing plates and the sector arms. Calculation for direct and simple indexing.   |
| Turning of taper by taper turning attachment - advantages and disadvantages, taper calculations.<br>Mandrel, Lathe centres, Lathe dog, catch plate/Driving plate, Face plate, Rests, their types & uses.   |
| Terms relating screw thread major/ minor diameter, pitch and lead of the screw, depth of thread. Simple gear train and compound gear train change gears for fractional pitches. Square thread and its form and calculation of depth, core dia, pitch dia.<br>Difference between single and multi-start threads- their uses, merits and demerits. |
| <b>Grinding –</b><br>Introduction, grinding wheel- abrasive, types, bond, grade, grid, structure, standard marking system of grinding wheel, selection of the grinding wheel.  |
| Dressing, types of dresser. Glazing and Loading of wheels –its causes and remedies.<br>Roughness values and their symbols.<br>Explain the importance and necessity of quality.   |
| <b>Surface Grinder –</b><br>Types, Parts, construction, use, methods of surface grinding, specification & safety.  |
| <b>Cylindrical grinder-</b><br>Introduction, parts, construction, types, specification, safety, different methods of cylindrical grinding.   |
| Cutting speed, feed, depth of cut, machining time calculation.   |
| Wet grinding and dry grinding, various types of grinding wheels and their application, grinding defects and remedies.  |
| <b><u>Engineering Drawing:</u></b><br>Introduction to Engineering Drawing and Drawing Instruments – <ul style="list-style-type: none"> <li>• Conventions</li> <li>• Sizes and layout of drawing sheets</li> <li>• Title Block, its position and content</li> <li>• Drawing Instrument</li> </ul>   |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

Lines- Types and applications in drawing Free hand drawing of –

- Geometrical figures and blocks with dimension
- Transferring measurement from the given object to the freehand sketches.
- Free hand drawing offhand tools and measuring tools.

Drawing of Geometrical figures:

- Angle, Triangle, Circle, Rectangle, square, Parallelogram.
- Lettering & Numbering- Single Stroke.Dimensioning
  - Types of arrow head
  - Leader line with text
  - Position of dimensioning (Unidirectional, Aligned)

Symbolic representation–

- Different symbol used in the related trades.Concept and reading of Drawing in
  - Concept of axes plane and quadrant
  - Concept of Orthographic and ISO metric projections
  - Method of first angle and third angle projections (definition and difference)

**WORKSHOP CALCULATION & SCIENCE:**

**Unit, Fractions**

Classification of unit system

Fundamental and Derived units F.P.S, C.G.S, M.K.S and SI units Measurement units and conversion

Factors, HCF, LCM and problems

Fractions - Addition, subtraction, multiplication & division Decimal fractions - Addition, subtraction, multiplication & division

**Square root, Ratio and Proportions, Percentage**

Square and square root

Applications of Pythagoras theorem and related problems Ratio and proportion

Ratio and proportion - Direct and indirect proportions Percentage

Percentage - Changing percentage to decimal and fraction

**Mass, Weight, Volume and Density**

Mass, volume, density, weight and specific gravity

Related problems for mass, volume, density, weight and specific gravity

**Speed and Velocity, Work, Power and Energy** Work, power, energy, HP, IHP, BHP and efficiency

**Heat & Temperature and Pressure**

Concept of heat and temperature, effects of heat, difference between

heat and temperature, boiling point & melting point of different metals and non-metals

Concept of pressure - Units of pressure, atmospheric pressure, absolute pressure, gauge

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

pressure and gauges used for measuring pressure

**Mensuration**

Area and perimeter of square, rectangle and parallelogram Area and perimeter of Triangles

Area and perimeter of circle, semi-circle, circular ring, sector of circle, hexagon and ellipse

Surface area and volume of solids - cube, cuboid, cylinder, sphere and hollow cylinder

Finding the lateral surface area, total surface area and capacity in litres of hexagonal, conical and cylindrical shaped vessels

**Levers and Simple machines**

Simple machines - Effort and load, mechanical advantage, velocity ratio, efficiency of machine, relationship between efficiency, velocity ratio and mechanical advantage

**Trigonometry**

Measurement of angles, Trigonometrical ratios, Trigonometrical tables

|   |
|---|
| Awareness of safety norms. Fire prevention and personal safety. Ergonomic safety and health principles. Use various PPE while working. Safety during material handling  |
| Operating procedures of material handling equipments, including manual handling. Knowledge of different tools and tackles used in rigging   |
| Application knots and hitches   |
| Types of sling, Construction of manila and steel rope   |
| SWL of slings based on apical angle   |
| Selection / Rejection criteria of steel sling   |
| Application of sling (choker, basket)   |
| Care and maintenance of rope  |
| Capacity of steel rope  |
| a) Construction and application of chain block.   |
| b) Different type of jacks, chain block, and pull lift  |
| Knowledge of different types of scaffolding   |
| Safety during working on scaffolding  |
| Application of sling on irregular shape load.   |
| Material movement by using different rigging tools and technique.   |
| Maintenance of tools and tackles.   |
| Types of derrick, use of derrick  |
| Types of winch, application winch.  |
| Calculation and estimation of weight of load.   |
| Application of sling at different angle   |
| Crane hand signal for EOT crane and mobile crane.   |
| <b><u>Workshop Calculation &amp; Science</u></b>  |
| <b><u>Unit:</u></b> Systems of unit- FPS, CGS, MKS/SI unit, unit of length, Mass and time, Conversion of units  |
| <b><u>Fractions:</u></b> Fractions, Decimal fraction, Addition, Subtraction, Multiplication and Division of Fractions and Decimals, conversion of Fraction to Decimal and vice versa.   |
| <b><u>Properties of Material</u></b> : properties - Physical & Mechanical, Types – Ferrous & Non-Ferrous, difference between Ferrous and Non-Ferrous metals, introduction of Iron, Cast Iron, Wrought Iron, Steel, difference between Iron and Steel, Alloy steel, carbon steel, stainless steel, Non-Ferrous Alloys. |
| <b><u>Average:</u></b> Problems of Average.   |
| <b><u>Ratio &amp; Proportion:</u></b> Simple calculation on related problems.   |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

**Mass, Weight and Density:**

Mass, Unit of Mass, Weight, difference between mass and weight, Density, unit of density.

**Percentage:** Introduction, Simple calculation. Changing percentage to decimal and fraction and vice-versa.

- Forces definition.

- Definition and example of compressive, tensile, shear forces, axial and tangential forces.

Stress, strain, ultimate strength, factor of safety for MS.

**Speed and Velocity:** Rest and motion, speed, velocity, difference between speed and velocity, acceleration, retardation.

**Mensuration:** Area and perimeter of square, rectangle, parallelogram, triangle, circle, semi circle.

Volume of solids – cube, cuboids, cylinder and Sphere.

Surface area of solids – cube, cuboids, cylinder and Sphere.

Area of cut-out regular surfaces: circle and segment and sector of circle.

- Volume of cut-out solids: hollow cylinders, frustum of cone, block section.

Volume of simple solid blocks.

**Work, Power and Energy:** work, unit of work, power, unit of power, Horse power, mechanical efficiency, energy, use of energy, potential and kinetic energy, examples of potential energy and kinetic energy.

**Geometry:**

Properties of angles, triangles and circles. Area of trapezoid, parallelograms, length of diagonals of square and rectangle.

Pythagoras theorem. Area and

Circumference of circle.

**Heat & Temperature:**

Heat and temperature, their units, difference between heat and temperature, boiling point, melting point, scale of temperature, relation between different scale of temperature, Thermometer, pyrometer, transmission of heat, conduction, convection, radiation.

**Friction** and its application in Workshop practice.

**Concept of pressure** – units of pressure, atmospheric pressure, gauge pressure – gauges used for measuring pressure.

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

**(IX) JOURNEYMAN (DRIVER MATERIAL HANDLING)**

**Hand & Power Tools: -**

- Marking scheme, marking **material** chalk, Prussian blue.
- Cleaning tools- Scraper, wire brush, Emery paper,
- Description, care and use of Surface plates, steel rule, measuring tape, try square. Calipers-inside and outside. Dividers, surface gauges, scribe,
- Punches-prick punch, centre punch, pin punch, hollow punch, number and letter punch.
- Chisel- flat, cross-cut.
- Hammer- ball pein, lump, mallet. Screw drivers-blade
- Screw driver, Phillips screwdriver, Ratchet screw driver. Allen key, bench vice & C-clamps
- Spanners- ring spanner, open end spanner & the combination spanner, universal adjustable open end spanner. Sockets & accessories,
- Pliers - Combination pliers, multi grip, long nose, flat- nose, Nippers or pincer pliers, Side cutters, Tin snips, Circlip pliers ,external circlips pliers.
- Air impact wrench, air ratchet, wrenches- Torque wrenches, pipe wrenches, Pipe flaring & cutting tool, pullers- Gear and bearing.

**Systems of measurement,**

- Description, Least Count calculation, care & use of Micrometers- Outside, and depth micrometer,
- Micrometer adjustments,
- Description, Least Count calculation, care & use of Vernier Calliper. Telescope gauges, Dial bore gauges, Dial indicators, straight edge, feeler gauge, thread pitch gauge, vacuum gauge, tire pressure gauge.

- Different types of metal joint (Permanent, Temporary), methods of, Soldering, etc.

**Fasteners**

- Study of different types of screws, nuts, studs & bolts, locking devices, Such as locknuts, cotter, split pins, keys, circlips, lockrings, lock washers and locating where they are used. Washers & chemical compounds can be used to help secure these fasteners. Function of **Gaskets**, Selection of materials for gaskets and packing, **oil seals. Types of Gaskets**— paper, multilayered metallic, liquid, rubber, copper and printed.
- Thread Sealants- Various types like, locking, sealing, temperature resistance, antilocking, lubricating etc.

**Cutting tools**

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

|   |
|---|
| <p>Study of different type of cutting tools like Hacksaw, File- Definition, parts of a file, specification, Grade, shape, different type of cut and uses., OFF- hand grinding with sander, bench and pedestal grinders, safety precautions while grinding.</p>  |
| <ul style="list-style-type: none"> <li>- Description and study of Bench type Drilling machine, Portable electrical Drilling machine, drill holding devices, WorkHolding devices, Drillbits.</li> </ul> <p><b>Taps and Dies</b></p> <ul style="list-style-type: none"> <li>- Hand Taps and wrenches, Calculation of Tap drill sizes for metric and inch taps. Different type of Die and Die stock. Screw extractors</li> </ul> <p><b>Hand Reamers</b> Different Type of hand reamers, Drill size for reaming, Lapping, Lapping abrasives, type of Laps.</p>  |
| <p><b>Introduction to Hydraulics&amp;Pneumatics</b></p> <ul style="list-style-type: none"> <li>- Description, symbols and application in automobile of Gear pump-Internal &amp; External, single acting, double acting &amp; Double ended cylinder; Directional control, Pressure relief valve, Nonreturn valve, Flow control valve used in automobile.</li> </ul>  |
| <ul style="list-style-type: none"> <li>- Classification of vehicles on the basis of load as per central motor vehicle rule, wheels, final drive, and fuel used, axles, position of engine and steering transmission, body and load.</li> </ul> <p>Uses of Vehicle hoists– Two post and four post hoist, Engine hoists, Jacks, Stands.</p>   |
| <p><b>Introduction to Engine:</b></p> <ul style="list-style-type: none"> <li>- Description of internal &amp; external combustion engines, Classification of IC engines, Principle &amp; working of 2 &amp; 4-stroke diesel engine (Compression ignition Engine (C.I),</li> <li>- Principle of Spark Ignition Engine (SI), differentiate between 2-stroke and 4 stroke, C.I engine and S.I Engine,</li> <li>- Main Parts of IC Engine</li> <li>- Direct injection and indirect injection, Technical terms used in engine, Engine specification.</li> <li>- Study of various gauges/instrument on a dash board of a vehicle- Speedometer, Tachometer, Odometer and Fuel gauge, and Indicators such as gearshift position, Seat belt warning light, Parking-brake- engagement warning light and an Engine-malfunction light.</li> <li>- Different type of starting and stopping method of Diesel Engine</li> <li>- Procedure for dismantling of diesel engine from a vehicle.</li> </ul> |
| <p><b>Diesel Engine Components:</b></p> <ul style="list-style-type: none"> <li>- Description and Constructional feature of Cylinder head, Importance of Cylinder head design,</li> <li>- Type of Diesel combustion chambers,</li> <li>- Effect on size of Intake &amp; exhaust passages, Head gaskets.</li> <li>- Importance of Turbulence. Valves &amp; Valve Actuating Mechanism -</li> </ul>   |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

|   |
|---|
| <ul style="list-style-type: none"> <li>- Description and Function of Engine Valves, different types, materials,</li> <li>- Type of valve operating mechanism, Importance of Valve seats, Valve seats inserts in cylinder heads,</li> <li>- importance of Valve rotation, Valve stem oil seals, size of Intake valves, Valve trains, Valve- timing diagram, concept of Variable valve timing.</li> <li>- Description of Camshafts &amp; drives ,</li> <li>- Description of Overhead cam shaft (SOHC and DOHC), importance of Cam lobes, Timing belts &amp; chains, Timing belts &amp; tensioners.</li> </ul>   |
| <ul style="list-style-type: none"> <li>- Description &amp; functions of different types of pistons, piston rings and piston pins and materials.</li> <li>- Used recommended clearances for the rings and its necessity precautions while fitting rings, common troubles and remedy.</li> <li>- Compression ratio.</li> <li>- Description &amp; function of connecting rod,</li> <li>- importance of big- end split obliquely</li> <li>- Materials used for connecting rods big end &amp; main bearings. Shells piston pins and locking methods of piston pins.</li> </ul>   |
| <ul style="list-style-type: none"> <li>- Description and function of Crank shaft, camshaft,</li> <li>Engine bearings- classification and location – materials used &amp; composition of bearing materials- Shell bearing and their advantages- special bearings material for diesel engine</li> <li>- Application bearing failure &amp; its causes- care &amp; maintenance.</li> <li>- Crank-shaft balancing, firing order of the engine.</li> </ul>  |
| <ul style="list-style-type: none"> <li>- Description and function of the fly wheel and vibration damper.</li> <li>- Crank case &amp; oil pump, gears timing mark, Chainsprockets, chain tensioner etc.</li> <li>- Function of clutch &amp; coupling units attached to flywheel.</li> </ul>  |
| <ul style="list-style-type: none"> <li>- Description of Cylinder block,</li> <li>- Cylinder block construction,</li> <li>- Different type of Cylinder sleeves (liner).</li> </ul>   |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

- lubricating systems, supplying fuel oil, hydraulic coupling,
- Reduction gear drive,electromagnetic coupling, Electrical drive, generators and motors,supercharging.

**Emission Control :-Vehicle emissions**

- Standards- Euro andBharat II, III, IV, V
- Sources of emission,Combustion,  
Combustion chamber design.

**Types of emissions:**

- Characteristics and Effect of Hydro carbons, Hydro carbons in exhaust gases, Oxides of nitrogen, Particulates,
  - Carbon monoxide, Carbon dioxide, Sulphurcontent in fuels
- Description of Evaporation emission control, Catalytic conversion, Closed loop,
- Crankcase emission control, Exhaust gas recirculation (EGR) valve,controlling air- fuel ratios, Charcoal storage devices, Diesel particulate filter (DPF).
- Selective Catalytic, Reduction (SCR), EGR VS
- SCR

**Mechanical handling of machines/equipments:**

Different types of appliances and tackle for shifting, loading and un-loading of machinesand equipments.

Screw jacks – their use and working principles.Chain pulley blocks – their use and working principles.

Crane and hoists for lifting purposes – workingprinciples and main constructional features.

Working principles and use of other tackles like crabs and winches, slings, rollers and bars,levers, lashings and packing

**ENGINEERING DRAWING:**

**Introduction to Engineering Drawing and DrawingInstruments**

- Conventions
- Sizes and layout of drawing sheets
- Title Block, its position and content
- Drawing Instrument

**Lines- Types and applications in drawing**

Free hand drawing of –

- Geometrical figures and blocks with dimension
- Transferring measurement from the given object to thefree hand sketches.

**Dimensioning**

- Types of arrowhead
- Leader line with text

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

- Position of dimensioning (Unidirectional, Aligned)

**Symbolic representation –**

- Different symbols used in the related trades of MechanicAuto  
Body Repair / Electrical and Electronics / Diesel / Tractor /Two and Three-wheeler.

**Concept and reading of Drawing in**

- Concept of axes plane and quadrant
- Concept of Orthographic and Isometric projections
- Method of first angle and third angle projections

**WORKSHOP CALCULATION & SCIENCE**

**Unit, Fractions**

Classification of unit system

Fundamental and Derived units F.P.S, C.G.S, M.K.S and Slunits

Measurement units and conversionFactors, HCF, LCM and  
problems

Fractions - Addition, subtraction, multiplication &division

Decimal fractions - Addition, subtraction, multiplication & division

**Square root, Ratio and Proportions, Percentage**

Square and square root

Applications of Pythagoras theorem and related problemsRatio and proportion

Ratio and proportion - Direct and indirect proportions

Percentage - Changing percentage to decimal and fraction

**Material Science**

Types metals, types of ferrous and non ferrous metalsPhysical and mechanical  
properties of metals Introduction of iron and cast iron

Difference between iron & steel, alloy steel and carbonsteel

Properties and uses of rubber, timber and insulatingmaterials

**Mass, Weight, Volume and Density**

Mass, volume, density, weight and specific gravity,

Related problems for mass, volume, density, weight and specific gravity

**Speed and Velocity, Work, Power and Energy**

Speed and velocity - Rest, motion, speed, velocity, difference between speed and  
velocity, acceleration andretardation

Speed and velocity - Related problems on speed & velocity

Work, power, energy, HP, IHP, BHP and efficiency

**Heat & Temperature and Pressure**

Concept of heat and temperature, effects of heat, difference between heat and  
temperature, boiling point&melting point of different metals and non-metals

Concept of pressure - Units of pressure, atmospheric pressure, absolute pressure,

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

gauge pressure and gauges used for measuring pressure

**Mensuration**

Area and perimeter of square, rectangle and parallelogram

Surface area and volume of solids - cube, cuboid, cylinder, sphere and hollow cylinder

Finding the lateral surface area, total surface area and capacity in litres of hexagonal, conical and cylindrical shaped vessels

**Levers and Simple machines**

Simple machines - Effort and load, mechanical advantage, velocity ratio, efficiency of machine, relationship between efficiency, velocity ratio and mechanical advantage

Lever & Simple machines - Lever and its types

**Trigonometry** Measurement of angles, Trigonometrical ratios Trigonometrical tables

\*\*\* \*\*

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

Magnitude comparators.<br>Half adder, full adder ICs and their applications for implementing arithmetic operations.<br>Concept of encoder and decoder. Basic Binary Decoder and four bit binary decoders.<br>Need for multiplexing of data. 1:4 line Multiplexer / De- multiplexer.   |

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

Introduction to Flip-Flop.

S-R Latch, Gated S-R Latch, D- Latch.

Flip-Flop: Basic RS Flip Flop, edge triggered D Flip Flop, JK Flip Flop, T Flip Flop.

Master-Slave flip flops and Timing diagrams.

Basic flip flop applications like data storage, data transfer and frequency division.

Block diagram and Working of Op-Amp, importance, Ideal characteristics, advantages and applications.

Schematic diagram of 741, symbol.

Non-inverting voltage amplifier, inverting voltage amplifier, summing amplifier, Comparator, zero cross detector, differentiator, integrator and instrumentation amplifier, other popular Op-Amps.

Block diagram of 555, functional description w.r.t. different configurations of 555 such as monostable, astable and VCO operations for various application.

**ENGINEERING DRAWING**

Introduction to Engineering Drawing and Drawing Instrument –

- Conventions
- Sizes and layout of drawing sheets
- Title Block, its position and content
- Drawing Instrument

Free hand drawing of–

- Geometrical figures and blocks with dimension
- Transferring measurement from the given object to the free hand sketches.
- Free hand drawing of hand tools.

Drawing of Geometrical figures:

- Angle, Triangle, Circle, Rectangle, Square, Parallelogram.
- Lettering & Numbering – Single Stroke

Symbolic representation–

- Different Electronic symbols used in the related trades

**WORKSHOP CALCULATION & SCIENCE**

**Unit, Fractions**

Classification of unit system Fundamental and Derived units F.P.S, C.G.S, M.K.S and SI units Measurement units and conversion. Factors, HCF, LCM and problems. Fractions - Addition, subtraction, multiplication & division. Decimal fractions - Addition, subtraction, multiplication & division.

**Square root, Ratio and Proportions, Percentage**

Square and square root.

Applications of Pythagoras theorem and related problems.

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

Ratio and proportion.

Ratio and proportion - Direct and indirect proportions Percentage

Percentage - Changing percentage to decimal and fraction.

**Material Science**

Types metals, types of ferrous and non-ferrous metals.

Introduction of iron and cast iron.

**Heat & Temperature and Pressure**

Concept of heat and temperature, effects of heat, difference between heat and temperature, boiling point & melting point of different metals and non-metals.

Scales of temperature, Celsius, Fahrenheit, kelvin and conversion between scales of temperature.

**Basic Electricity**

Introduction and uses of electricity, molecule, atom, how electricity is produced, electric current AC, DC their comparison, voltage, resistance and their units Conductor, insulator, types of connections - series and parallel. Ohm's law, relation between

V.I.R & related problems. Electrical power, energy and their units, Magnetic induction, self and mutual inductance and EMF generation Electrical power, HP, energy and units of electrical energy

**Trigonometry**

Measurement of angles, Trigonometrical ratios, Trigonometrical tables

Introduction to Static charges, prevention, handling of static sensitive devices, various standards for ESD. Introduction to non-soldering interconnections.

Construction of Printed Circuit Boards (single, Double, multi- layer), Important tests for PCBs.

Introduction to rework and repair concepts.

Repair of damaged track. Repair of damaged pad and plated through hole.

Repair of solder mask.

Necessity of fuse, fuse ratings, types of fuses, fuse bases.

Single/ three phase MCBs, single phase ELCBs.

Types of contactors, relays and working voltages.

Contact currents, protection to contactors and high current applications.

**1. LOW VOLTAGE DC MOTOR**

(Low Potential motor) Introduction of DC motor. Types of DC motor .Types of DC motor controller.

DC Motor power.

Types of DC Motor power regulation.

Application area of DC motor controller.

2. What is a Stepper motor and its types.

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

Stepper Motor working Principal.

How to select a stepper motor Types of wiring of stepper motor. Stepper motor control by varying clock pulses.

Advantage of stepper motor.

Radio Wave Propagation – principle, fading.

Need for Modulation, types of modulation and demodulation. Fundamentals of Antenna, various parameters, types of Antennas & application.

Introduction to AM, FM & PM, SSB-SC & DSB-SC.

Block diagram of AM and FM transmitter.

FM Generation & Detection.

Digital modulation and demodulation techniques, sampling, quantization & encoding.

Concept of multiplexing and de multiplexing of AM/ FM/ PAM/ PPM /PWM signals.

A simple block diagram approach to be adopted for explaining the above mod/demod techniques.

Introduction Microprocessor & 8051 Microcontroller, architecture, pin details & the bus system.

Function of different ICs used in the Microcontroller Kit.

Differentiate microcontroller with microprocessor.

Interfacing of memory to the microcontroller.

Internal hardware resources of microcontroller.

I/O port pin configuration. Different variants of 8051 & their resources.

Register banks & their functioning. SFRs & their configuration for different applications.

Comparative study of 8051 with 8052.

Introduction to PIC Architecture.

Basics of passive and active transducers.

Role, selection and characteristics.

Sensor voltage and current formats.

Thermistors/ Thermocouples - Basic principle, salient features, operating range, composition, advantages and disadvantages. Strain gauges/ Load cell – principle, gauge factor, types of strain gauges.

Inductive/ capacitive transducers - Principle of operation, advantages and disadvantages.

Principle of operation of LVDT, advantages and disadvantages. Proximity sensors – applications, working principles of eddy current, capacitive and inductive proximity sensors.

Introduction to optical fiber, optical connection and various types optical amplifier, its advantages, properties of optic fiber, testing, losses, types of fiber optic cables and

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

**(XI) JOURNEYMAN (DIESEL MECHANIC)**

**Hand & Power Tools: -**

- Marking scheme, marking **material** chalk, Prussian blue.
- Cleaning tools- Scraper, wire brush, Emery paper,
- Description, care and use of Surface plates, steel rule, measuring tape, try square. Calipers-inside and outside. Dividers, surface gauges, scribe,
- Punches-prick punch, centre punch, pin punch, hollow punch, number and letter punch.
- Chisel- flat, cross-cut.
- Hammer- ball peen, lump, mallet. Screw drivers-blade
- Screw driver, Phillips screwdriver, Ratchet screw driver. Allen key, bench vice & C-clamps,
- Spanners- ring spanner, open end spanner & the combination spanner, universal adjustable open end spanner. Sockets & accessories,
- Pliers - Combination pliers, multi grip, long nose, flat- nose, Nippers or pincer pliers, Side cutters, Tin snips, Circlip pliers ,external circlips pliers.
- Air impact wrench, air ratchet, wrenches- Torque wrenches, pipe wrenches, Pipe flaring & cutting tool, pullers- Gear and bearing.

**Systems of measurement,**

- Description, Least Count calculation, care & use of Micrometers- Outside, and depth micrometer,
- Micrometer adjustments,
- Description, Least Count calculation, care & use of Vernier Calliper. Telescope gauges, Dial bore gauges, Dial indicators, straight edge, feeler gauge, thread pitch gauge, vacuum gauge, tire pressure gauge.

- Different types of metal joint (Permanent, Temporary), methods of, Soldering, etc.

**Fasteners**

- Study of different types of screws, nuts, studs & bolts, locking devices, Such as locknuts, cotter, split pins, keys, circlips, lockrings, lock washers and locating where they are used. Washers & chemical compounds can be used to help secure these fasteners. Function of **Gaskets**, Selection of materials for gaskets and packing, **oil seals. Types of Gaskets**— paper, multilayered metallic, liquid, rubber, copper and printed.
- Thread Sealants- Various types like, locking, sealing, temperature resistance, antilocking, lubricating etc.

**Cutting tools**

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

|   |
|---|

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

- lubricating systems, supplying fuel oil, hydraulic coupling,
- Reduction gear drive, electromagnetic coupling, Electrical drive, generators and motors, supercharging.

**Emission Control :- Vehicle emissions**

- Standards- Euro and Bharat II, III, IV, V
- Sources of emission, Combustion,  
Combustion chamber design.

**Types of emissions:**

- Characteristics and Effect of Hydro carbons, Hydro carbons in exhaust gases, Oxides of nitrogen, Particulates,
  - Carbon monoxide, Carbon dioxide, Sulphur content in fuels
- Description of Evaporation emission control, Catalytic conversion, Closed loop,
- Crankcase emission control, Exhaust gas recirculation (EGR) valve, controlling air- fuel ratios, Charcoal storage devices, Diesel particulate filter (DPF).
- Selective Catalytic, Reduction (SCR), EGR VS SCR

**ENGINEERING DRAWING:**

**Introduction to Engineering Drawing and Drawing Instruments**

- Conventions
- Sizes and layout of drawing sheets
- Title Block, its position and content
- Drawing Instrument

**Lines- Types and applications in drawing**

Free hand drawing of –

- Geometrical figures and blocks with dimension
- Transferring measurement from the given object to the free hand sketches.

**Dimensioning**

- Types of arrowhead
- Leader line with text
- Position of dimensioning (Unidirectional, Aligned)

**Symbolic representation –**

- Different symbols used in the related trades of Mechanic Auto Body Repair / Electrical and Electronics / Diesel / Tractor / Two and Three-wheeler.

**Concept and reading of Drawing in**

- Concept of axes plane and quadrant
- Concept of Orthographic and Isometric projections
- Method of first angle and third angle projections

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

**WORKSHOP CALCULATION & SCIENCE**

**Unit, Fractions**

Classification of unit system

Fundamental and Derived units F.P.S, C.G.S, M.K.S and SI units

Measurement units and conversion, Factors, HCF, LCM

Fractions - Addition, subtraction, multiplication & division

Decimal fractions - Addition, subtraction, multiplication & division

**Square root, Ratio and Proportions, Percentage**

Square and square root

Applications of Pythagoras theorem and related problems Ratio and proportion

Ratio and proportion - Direct and indirect proportions

Percentage - Changing percentage to decimal and fraction

**Material Science**

Types metals, types of ferrous and non ferrous metals Physical and mechanical properties of metals Introduction of iron and cast iron

Difference between iron & steel, alloy steel and carbon steel

Properties and uses of rubber, timber and insulating materials

**Mass, Weight, Volume and Density**

Mass, volume, density, weight and specific gravity,

Related problems for mass, volume, density, weight and specific gravity

**Speed and Velocity, Work, Power and Energy**

Speed and velocity - Rest, motion, speed, velocity, difference between speed and velocity, acceleration and retardation

Speed and velocity - Related problems on speed & velocity

Work, power, energy, HP, IHP, BHP and efficiency

**Heat & Temperature and Pressure**

Concept of heat and temperature, effects of heat, difference between heat and temperature, boiling point & melting point of different metals and non-metals

Concept of pressure - Units of pressure, atmospheric pressure, absolute pressure, gauge pressure and gauges used for measuring pressure

**Basic Electricity**

Introduction and uses of electricity, electric current AC, DC their comparison, voltage, resistance and their units Conductor, insulator, types of connections - series and parallel Ohm's law, relation between V.I.R & related problems

**Mensuration**

Area and perimeter of square, rectangle and parallelogram

Surface area and volume of solids - cube, cuboid, cylinder, sphere and hollow cylinder

Finding the lateral surface area, total surface area and capacity in litres of hexagonal,

**EN 2025/05 (J) - SYLLABUS FOR WRITTEN TEST (PART-I PAPER)**

conical and cylindrical shaped vessels

**Levers and Simple machines**

Simple machines - Effort and load, mechanical advantage, velocity ratio, efficiency of machine, relationship between efficiency, velocity ratio and mechanical advantage

Lever & Simple machines - Lever and its types

**Trigonometry** Measurement of angles, Trigonometrical ratios Trigonometrical tables

\*\*\* \*\*
