

MESSAGE FROM CMD
LAUNCHING OF ASW-SWC YARD 3031

GRSE has achieved another significant milestone with launching of the fourth Anti-Submarine Warfare-Shallow Water Craft Ship (ASWSWC), Yard 3031 (INS Amini). This ship has been launched with a noteworthy progress of more than 40% and this is a commendable feat which has been made possible by the untiring and dedicated efforts put in by Team GRSE, especially the PP&C, PMT (Chennai), Commercial, Design and QA Departments. Heartiest Congratulations!

Having achieved this milestone, we cannot rest on our laurels. We have a series of challenging milestones ahead of us, which include delivery of first SVL (Yard 3025), the first ASW SWC (Yard 3029) and launching of 5th and 6th ASW SWC ships (Yards 3033 & 3036) from GRSE. We need to continue to work hard to achieve our targets.

Well done, Shabash.

Jai Hind.
