The custom, port handling charges, Landing charges and local transportation from Port to GRSE shall be 1% of FOB price.

(iii) Taxes and duties, if no input Tax Credit is available to GRSE, is cost for GRSE.

(b) Loading for Deviations in Tender Terms and Conditions:

The bid is liable for rejection, if terms and conditions stipulated in NIT documents are not accepted by bidder [Refer Liability for Bid Rejection criteria {9(b)} in Instruction to Bidder]. In case the techno commercial bid is accepted by GRSE, the loading in Price Bid for deviations (taken by bidder) to tender terms shall be carried out as per following guidelines for the purpose of ranking of financial bid and L-1 determination:

(i) Payment Terms: It is desirable that the bidder accepts the Payment terms indicated in the tender. Varied payment terms quoted by bidders as compared to the terms stated in the Tender document shall be normalized by adopting the Base Rate/MCLR declared by RBI (Median value applicable for public sector Banks) plus 2%, or 6% whichever is higher thereon

on the amount(s) at variation and/or for the period (in no. of days) at variation and LIBOR plus 2% or 6% whichever is higher in case of Foreign bidders. The tender closing date shall be considered for reckoning Base rate/MCLR and LIBOR rate.

- (ii) Delivery of the Goods: The Bidder is required to offer bid as per the Delivery/Price Terms of this NIT. However, for unavoidable reasons, if bids are exclusive of transport and / or insurance, the same will be loaded.
- (iii) For the additional delivery period sought by the bidder over the stipulated date of delivery as per Tender, 0.50% per completed week will be loaded to the quoted price, provided the extended delivery period is acceptable to GRSE.
- (iv) Deviations sought in respect of rate per week and / or maximum ceiling in respect of liquidated damages shall be loaded to the quoted price. For example, the maximum ceiling towards liquidated damages stipulated in the Tender is 5% and the bidder seeks to limit it to, say 3.50% then the price quoted will be loaded by 1.5%. If the rate of LD per week is 0.50% per week or part thereof as per tender and the bidder seeks it as, say, 0.40% per week or part thereof, the maximum ceiling on LD as per tender will first be equated to weeks (10 weeks in this case) and the rate proposed by the bidder i.e. 0.40% will be multiplied by the so equated maximum period (which works out to 4%) and the quoted price will be loaded accordingly by 1%. Delivery being the essence of the contract, it is desirable if the bidder(s) adhere to the stipulated clause.
- (v) Deviation in respect of the period of warranty/guarantee shall be loaded to the quoted price @warranty/guarantee extension charge quoted by bidder for 2 years from initial warranty period sought in tender documents, if bidder does not quote for warranty period extension charge then @0.25% per month for period of warranty in deviation.
- (vi) Variation (with respect to NIT clause), regarding the quantum of Security Deposit or Contract Performance Guarantee, whether by way of Bank Guaranty or by way of Demand drafts is not necessary to be loaded when the deviation is treated as Bid Rejection Criteria. If it is not a bid rejection criteria, the variation shall be normalized by loading the quoted price with the quantum of variation.
- (vii) In respect of the requirement (with respect to NIT clause) for furnishing Bank Guarantee for Equipment Performance (specified number of months from date of supply or specified number of months from the date of commissioning of equipment or specified number of months from commissioning of ship whichever is earlier), the question of loading factor does not arise when the non-compliance is a bid rejection criteria. If it is not a bid rejection criteria, the variation shall be normalized by loading the quoted price by an amount equivalent to 10% of quoted price minus the quantum, if any, for which portion of guarantee is agreed to by the bidder.
