The bid is liable for rejection, if terms and conditions stipulated in NIT documents are not accepted by bidder [Refer Liab for Bid Rejection criteria {9(b)} in Instruction to Bidder]. In case the techno commercial bid is accepted by GRSE, the loading in Price Bid for deviations (taken by bidder) to tender terms shall be carried out as per following guidelines for the purpose of ranking of financial bid and L-1 determination:

- (i) **Payment Terms:** It is desirable that the bidder accepts the Payment terms indicated in the tender. Varied payment terms quoted by bidders as compared to the terms stated in the Tender document shall be normalized by adopting the Base Rate/MCLR declared by RBI (Median value applicable for public sector Banks) plus 2%, or 6% whichever is higher thereon on the amount(s) at variation and/or for the period (in no. of days) at variation and LIBOR plus 2% or 6% whichever is higher in case of Foreign bidders. The tender closing date shall be considered for reckoning Base rate/MCLR and LIBOR rate.

- (ii) Delivery of the Goods: The Bidder is required to offer bid as per the Delivery/Price Terms of this NIT. However, for unavoidable reasons, if bids are exclusive of transport and / or insurance, the same will be loaded.
 - (iii) For the additional delivery period sought by the bidder over the stipulated date of delivery as per Tender, 0.50% per completed week will be loaded to the quoted price, provided the extended delivery period is acceptable to GRSE.
 - (iv) Deviations sought in respect of rate per week and / or maximum ceiling in respect of liquidated damages shall be loaded to the quoted price. For example, the maximum ceiling towards liquidated damages stipulated in the Tender is 10% and the bidder seeks to limit it to, say 3.50% then the price quoted will be loaded by 6.5%. If the rate of LD per week is 0.50% per week or part thereof as per tender and the bidder seeks it as, say, 0.40% per week or part thereof, the maximum ceiling on LD as per tender will first be equated to weeks (20 weeks in this case) and the rate proposed by the bidder i.e. 0.40% will be multiplied by the so equated maximum period (which works out to 8%) and the quoted price will be loaded accordingly by 2%. Delivery being the essence of the contract, it is desirable if the bidder(s) adhere to the stipulated clause.
 - (v) Deviation in respect of the period of warranty/guarantee shall be loaded to the quoted price @warranty/guarantee extension charge quoted by bidder for 2 years from initial warranty period sought in tender documents, if bidder does not quote for warranty period extension charge then @0.25% per month for period of warranty in deviation.
 - (vi) In respect of the requirement (with respect to NIT clause) for furnishing Bank Guarantee for Equipment Performance (specified number of months from date of supply or specified number of months from the date of commissioning of equipment or specified number of months from commissioning of ship whichever is earlier), the question of loading factor does not arise when the non-compliance is a bid rejection criteria. If it is not a bid rejection criterion, the variation shall be normalized by loading the quoted price by an amount equivalent to 10% of quoted price minus the quantum, if any, for which portion of guarantee is agreed to by the bidder.
 - (vii) Refer Taxes and Duties clause for Foreign Bidder in Annexure-VI. If foreign bidder does not agree with deduction of withholding tax from their service bills, then tax amount applicable (as per Indian Government's rules) as on tender closing date shall be loaded with price bid for L-1 determination.
 - (viii) In case of deviation for other terms and conditions of tender (which are not spelt out above), Bidder's price shall also be loaded appropriately (as decided by GRSE based on deviation taken by Bidder) in order to bring price bids of all qualified bidders at par and for L-1 determination.
 - (ix) The above loading is only for bid ranking (L-1 determination).
 - (x) Sample Landed Cost Calculation and L-1 Bidder Determination is placed under tab <https://www.grse.in/tender/CommercialShipBuilding>
- (c) The lowest financial bid determined considering parameters mentioned at para (a) and loading factor mentioned at para (b) shall be termed as L-1 bid.
- (d) On-line ranking visible to the bidders after opening Part-II price bid is without loading parameters. However, the L1 bidder will be evaluated offline by applying all applicable loading parameters as per tender and clarifications during techno-commercial scrutiny / Technical negotiations / Commercial negotiations, etc.
- (e) Discount given, if any, by the bidders, after the last date for submission of the bids but before opening of the price bids, will not be considered for determining the ranking of bids. However, in the event of the Bidder emerging as the lowest evaluated Bidder without considering the discount/rebate(s), then such discount/rebate(s) offered by the Bidder shall be considered for Award and the same will be conclusive and binding on the Bidder.
