**'AI' PRODUCT LAUNCH BY HON'BLE RM**

'AIDEF' (Artificial Intelligence in Defence) Exhibition cum Symposium was held at Delhi on 11 Jul 2022. It is indeed a matter of great pride for our shipyard that two of our AI products (HR Chatbot – Anvesha & Weld Quality Analyzer- IWI (Intelligent Weld Inspector) were exhibited during this prestigious event with the Hon'ble RM launching the IWI (Intelligent Weld Inspector). This milestone achievement has provided us National Visibility on the AI front and will definitely bolster our efforts towards transformation into a "Smart Shipyard".

This has been made possible by the untiring and dedicated efforts put in by all the stakeholders – VD & IEP, QA, HR, ERP, CDO and CC Departments. Heartiest Congratulations!

Well done, Shabash.

Jai Hind.
